

4/5/89 ONE MORE TIME//NO NO NO
TO THE EVICTION OF CROS IO/

6th June marked the 2nd birthday party of the 'Alternative and Anarchist Centre' squat in Barcelona. The occupiers are continuing their activities and mobilizing to face a new threat, a new court case in the civil courts this time, in which the owner is demanding eviction plus a half million £ in lost rent. They are speculators and own lots of other empty property in the city. The squatters have organised a series of gigs etc and have made a fanzine and a single record. Contact Ateneo Libertario, Cros IO, Barcelona 08014.

NO NO NO NO NO to the
EVICTION OF CROS IO.

On the 10th July the occupiers of the CROS IO Anarchist Centre WON their 2nd court case after more than 2 years in action when the judge inexplicably dismissed the case against the 70 named occupiers. Celebrations are continuing and new action is planned!!!!

NO TO THE ARMY///.....
TOTAL RESISTANCE

In recent months the struggle against compulsory military service has escalated, with 100's of young people declaring themselves to be TOTAL REFUSERS, not going to the army service and also refusing the new alternative military service which the State has brought in to try and solve the 'problem'. When you refuse military service and are classed as an Objector you get called up again for the alternative service. So far there have been 3 rounds of 2nd call-ups and each time objectors, with support demos have presented themselves to the military governor to declare themselves total objectors and be arrested.

→ CONTINUED NEXT PAGE.

ANARCHIST DIARY 1990

Already out is AGENDA, the anarchist diary for 1990 with brilliant graphics, contacts etc. Highly recommended. Get it through the ANA address, 500% or 400% to shops.

NEW ANTI MILI VIDEO

The anti militarist A group CAMPI in Barcelona have made an excellent half hour video about the Anti-militarist movement and are to make a 2nd. Its called NO VAGIS A LA MILI (don't go to the mili service) and costs 2000%. We have just translated it into English and made an English language version. Both versions available through ANA, Apdo Correos 72, Prat de Llobregat, 08820 Barcelona.

ANARCHIST CENTRE FIREBOMBED

On 9th July at 2.45am there was a terrorist firebomb attack on the Anarchist Centre in Gracia in Barcelona. The people of the centre were in the middle of celebrating a series of exhibitions, debates, parties, music, etc to mark their 14th birthday and to resist an attempt at eviction due to 'Olympic Speculation'. The property has new owners who want to evict them to take advantage of the crazy Olympic spiral in rents and property.

Fortunately the structure of the building, though old, resisted and the criminals don't have the satisfaction of dead bodies among the neighbours upstairs'. One side of the centre was badly damaged, mainly by intense heat, including the bar and roof beams etc. In a leaflet the anarchists that they will reopen the workers centre at all costs. The next day 150 people marched round the area, protesting at the crime and speculation. No one claimed responsibility and the usual fascist graffiti was absent. The demo was marred by a fist fight between factions of the CNT and CGT. To support the centre write to: Ateneu Libertari a Gracia, Calle Perill 52, Gracia, Barcelona.

Last March began the occupation of Calle Montseny 159 in the big Barcelona suburb of Hospitalet. The building has been empty and abandoned since the 70's..work immediately began in building a new Anarchist Centre. To promote

LA IDEA

the idea we did murals, stalls, signatures, dossiers and a demo outside the local council. We also do an information bulletin called The Idea.. "We need a space where to develop our creativity spread our thoughts and freely construct our initiatives.. without the supervision of any one who would try to guide us into serving their sectarian interests, which we don't share cos they're not ours.." From the second issue of The Idea

ZARAGOZA SQUATS

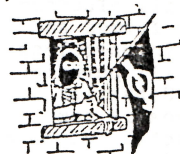

The squatters collective of Zaragoza have been looking for a home. On 6th May a new squat.. a 3 story building owned by the defunct francist paper 'Amanecer'. This was evicted on 18th May. On 3rd June a new squat, which was quickly left due to its terrible condition and the huge police presence.

BILBAO'S ARTISTIC UNEMPLOYED

On 4th April 50 people from the unemployed group of Vizcaya (Bilbao) occupied the Museum of Fine Arts.

FESTIVAL IN SQUAT

To mark their 1st birthday the squatters centre in Vitoria (Gasteiz) held a festival with live pirate radio, street theatre, alternative exhibition, mess eat-ins, videos, concerts etc.

aaa Centre in Gava

The Anarchist Centre in Gava near Barcelona have been celebrating their 1st anniversary. In their fanzine they say "The workers centre was born due to the need to unite forces to make a free alternative popular culture"

LA INSUMISION

FROM PAGE ONE

But the state has shown weakness, maybe because almost everyone is, passively, against the mili (up to 90% against in Catalunya and Euskadi). Normally they just arrest 2 or 3 at each centre, apparently at random. This provokes in every case so far a series of demos, sit-ins, chain-ins, marches to the prisons etc. So far in each case the State has backed down and let the objectors go within a month, to face possible court cases later. To declare yourself a Total Refuser is to go against the State and all it stands for, so the anti-mili movement is mainly an anarchist struggle, with the lefties, parties and unions (except the anarcosindicalist CNT-AIT) keeping clear or giving passive approval. Nor have the radical Catalan and Basque nationalists become seriously involved, they want their own army after their revolution. Its a case of a large number of local support groups all over the country, Mili KK, and MOC, Movement of Conscientious Objectors which coordinates and does legal work. The alternative info groups, ANA, Tas Tas, Upa and Contra (and Eko) also have an important job, its difficult to keep up with the literally 100's of actions of a decentralised movement. The aim now is to tell people... 'you can get away with it' and next year persuade 1000's (or tens of 1000's) to make the whole system unworkable. There follows a much shortened diary of actions for the last few months...

FEBRUARY

3/2 The 1st round of call ups for Alternative Service begins in the north. 25 total refusers present themselves in Bilbao alone. No arrests
8/2 Days of anti-mili action begin in Madrid university
17/2 Anti-mili platform of 8 collectives formed and has press conference in Barcelona
18/2 Anti mili parodies in Donostia (San Sebastian in spanish)
1000 at Donostia demo
20/2 Eight total refusers present themselves for arrest in the 1st round in Barcelona, with 200 supporters. No arrests but 3 of the Euskadi lot, Joxin, Gorka and Patxo arrested in Bilbo. Now a total of 57 total refusers state-wide.
21/2 200 demonstrate in Bilbo for the 3 arrested. Demo in Madrid.
Chain-in of 50 people in Donostia
MOC press conference in Madrid announces unmasking of Felipe Gonzales.

22/2 the 3 prisoners are moved to a military prison in Burgos, and later to Bassauri and then to El Ferrol
24/2 Demos of 200 in El Arenal and in Tudela (Navarra)
25/2 Support demo/meeting of Reus and Tarragona anti-mili platform. Demo of 400 in Iruña.
26/2 Two more arrests and demo of more than 1000 in Bilbo called by MOC and KAKITZAT
27/2 Demo of 200 in Gasteiz.

MARCH

1/3 Three of the 8 Catalan objectors arrested
4/3 Demo of about 3000 in Barcelona. Demos in Zaragoza where one total refuser, Miguel Ortermín has been moved. Demos in Laudio and Elgoibar (Euskadi)
6/3 New refuser arrested in Bilbo and Miguel released in Zaragoza
7th to 12th/3 Demos in Donostia, Barcelona, El Arenal, Salamanca and Zaragoza.

13/3 RELEASE of the 3 imprisoned in the Modelo, Barcelona, followed by a press conference.
14/3 12 members of the Platform invade and display a banner in a Barcelona Council meeting.
15/3 Demo outside Madrid parliament.
16/3 RELEASE of 2 of the original 3 arrested in Bilbo
ETCETERA

APRIL

1/4 Demo in Jerez de la Frontera
4/4 2nd round begins. 30 new total refusers present themselves to a military judge in Barcelona
No arrests
7/4 Demo in Las Palmas, Canaries
SEE SEPARATE EXAMPLE DEMO REPORT

COPS and NAZIS attack DEMO

On 7/4 an anti-military service demo of 100 was attacked by cops and at the same moment a bunch of known FN members (nazis) outside the Military Government in Las Palmas, Canaries. One fascist punched a woman and threatened her with a knife, another produced a pistol and threatened to fire. Many had their ID noted by the police and 9 were arrested and held overnight.

11/4 50 people put up posters etc on the Military Governor's HQ in Bilbo, until the spectacular appearance of helicopters
14th to 16th. Mobilizations for 2nd round of refusers handing themselves in in Euskadi

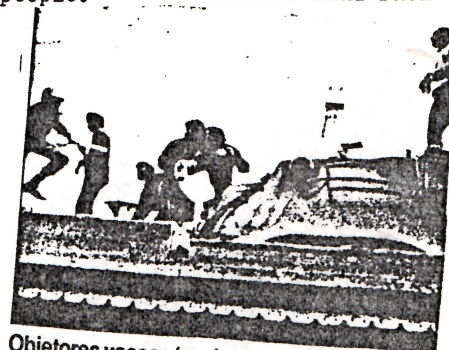

noticias UPA, TAS-TAS, CONTRA y ANA

17th/4 More than 100 new total refusers present themselves around the country to military judges. Only 4 arrests. Mariá Sans (Barcelona), José Martín (Madrid) and Carmelo Pascual (Vitoria). The 4th arrest in Zaragoza got conditionally released.
Demo same day in Mallorca by the Anarchist Centre and MOC.
20/4 Demoplus blockade of cars outside Modelo in Barcelona.
28/4 Mariá Sans freed from Barcelona prison

MAY

3/5 Assembly of total refusers sends citation to military judge.
7/5 Demo in Valladolid
10/5 Another refuser from the 1st round, Mikel Odrizola, arrested.
1/5 The refuser Solanich freed after 11 days inside
19/5 Demo in Canaries for both Spanish and Sth African total refusers of military service.
17/5 Refuser Ignacio Garcia arrested in Salamanca
16/5 Occupation of Sth African Embassy in Madrid by MOC to support 3 total refusers Daniel Brufe (6 years prison), Charles Bester (6 yrs) and Saul Batzaufin (18 months) in that state.
22 to 24/5. 72 hour long demo outside Military Government in Salamanca to support Ignacio Garcia
23/5 Preparations for big anti mili and anti Nato demos. Bar'na.
26/5 Demo of 1200 in Barcelona
SEE SEPARATE DEMO REPORT
The Barcelona demo of 26/5, called by MOC, CAMFI and MiliKK set off at 8pm in festive mood down the Ramblas, packed with spectators, more than doubling in size as it went. That day more than 30 NATO ships had arrived in the port for a naval exhibition the next day in front of the king and various shits. The whole port area and military HQ was blocked by police and after a sitdown and reading of a communique the demo ended and was followed by a concert all night in the main square, competing with the celebrations and huge firework display of the NATO nuclear fleet. The press completely ignored the demo, except for the Diari which mentioned 200 people.

CONTINUED NEXT PAGE

Objetores vascos 'asaltan' un convoy militar

FROM PAGE TWO

Next day there was a big leftist and pacifist demo 'Hands around the Port' against the Nato visit. Up to 10,000 people gathered and moved passively with white balloons towards the centre. The anarchists mocked the huge police presence and they responded by a very heavy charge on the whole demo, putting quite a few people in hospital and provoked us to build barricades and a short burst of rioting before the streets could be cleared due to the presence of the king etc banqueting on their boats. 11 people were arrested.

25th to 28th/5. A 3 day long demo outside the military HQ in Valladolid. News that José Martín is to be charged with refusing to wear prison clothes.

1/6 Finally a visit to Ignacia García who has been in isolation. He's delighted with protests.

7/6 RELEASE of Ignacio García after 24 days in isolation.

7/6 Demo of 300 in Burgos

8/6 3rd round of call ups of Objectors. 4 refusers and 2 supporters arrested in Barcelona. one arrested in Zaragoza and one in Viscaya. Out of a total of at least 125 new total refusers all over the country, with support demos in Gasteiz, Donostia, Bilbo, Iruña, Barcelona, Logroño, Burgos, Asturias, Córdoba, Salamanca etc of various types and sizes. 9/6 After a demo 3 objectors occupied the Columbus Pillar in Barcelona, with a huge banner and the police couldn't get them down.

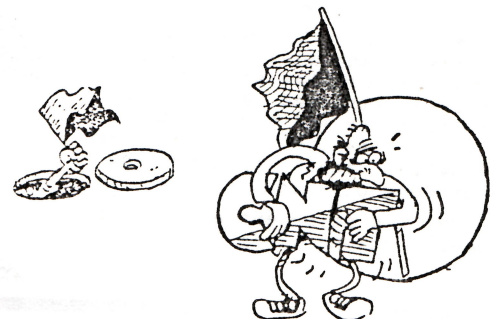

Supporters marched to the prison and again in following days. 11/6 2 of the occupiers and a supporter were arrested at the end of the Columbus Pillar occupation. The objectors were later let go but the supporter was held longer causing more demos, including one by the anarchist motorbike messengers collective. 20/6 (approx) After more demos all 4 'refusers in Barna RELEASED

ANARCO SYNDICALIST NEWS

The Anselm Lorenzo Foundation for Libertarian Studies has published 2 new books. The 1st is 'The CNT and the Company. Get it from Apdo 1071, 18080 Granada. The 2nd is 'Libertarian Economics: An Alternative to a World in Crisis.' by Abraham Guillen. Get it from: CNT-AIT, c/ Santa Maria 9. 22, izquierda, 48005 Bilbao. (both in spanish)

again more of the same, they that daily trample us under their feet, sell us, exploit us, resort to 'democratic duties' so that our legitimate votes for the 'Euro-Nationalist' centralist monstrosity will promote politicians who are the lackeys of capitalism...'. The communique on the political, economic and industrial base of the EC says also that there's an attempt to cut or abolish workers rights by the Strike Law... that Europe, thru NATO is ruled by guns. That the 'European Area'

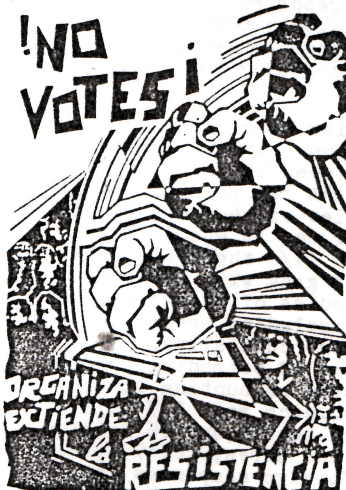

NEW VIDEO

The Asturia-Leon regional section of the CNT-AIT has made a video on the workers movement, anarchism, ecology and pacifism. If interested contact: CNT-AIT, c/ Sanz Crespo 3, 12, 33201 Gijón.

ELECTION FARCE

In Barcelona the CNT-AIT organised 8 events to oppose the Euro election. Here are some bits of our communique... (from the Regional Ctte of Catalunya)... 'The Gov. likes you to vote, the 'Duke' likes you to vote, the 'Califa' likes you to vote, the Bosses, Banks and the powers that be would all like you to vote:

(judicial, penal and political) is the subterfuge of a new fascism that hides itself behind the 'Only Event', one purpose being to destroy the revolutionary movement. That politicians resort to making people vote when they can't defeat the workers. The communique ends by appealing to people everywhere to ACTIVELY boycott the election charade.

The day after the election the headline in the Periodico was 'Abstentions win'.

ANTI¹ MILITARIST¹ COORDINATION
To contact the coordinating committee for CNT-AIT members who are also Objectors write to: César, Apdo 77, Leon or phone David, (93)3188834

CARABANCHEL ANTI PRISON DEMO

Several 100 people marched round Carabanchel Prison in Madrid with torches and placards saying 'Down with Prison Walls', 'Freedom for sick prisoners', and 'Free Anti-Militarist Objectors', the last slogan referring to 2 objectors then still imprisoned, now free. There were no incidents, despite 8 or 9 gangs of riot police being seen. The crowd started shouting, shooting up rockets etc while the prisoners yelled back, banged their window bars and switched their lights on and off. The demo was called by the Anti Prison Collective, BASTA (enough) and other city groups.

ANARCHISTS RELEASED

27/3 Eight anarchist prisoners 'without blood crimes' were let go after signing documents promising to struggle peacefully and support the Constitution. They were from a group caught when preparing for armed struggle by robbing banks etc. (In the 70s?) The pardon comes after long negotiations by the CGT union and only affects anarchist prisoners who agreed to be part of these negotiations. The release has caused controversy as the CGT is the reformist split of the CNT, but more because the

State has used the deal as a dry run practise for other efforts to divide the still active guerrillas of GRAPO, CAA (anti capitalist commandos) and above all ETA who have nearly 500 in jail, some with 1000 year sentences. The State has been dividing these prisoners into heavies and softies, moving them to different jails and preparing amnesty deals.

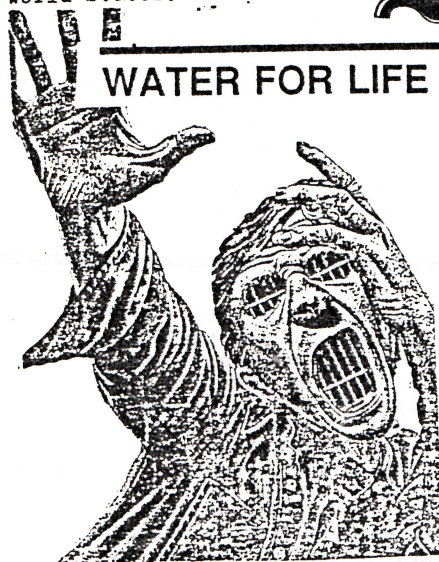

DISASTER WAITING TO HAPPEN

With the opening of the Vandellós nuclear station over 70% of Catalunya's electricity comes from nuclear power, with 4 of the 5 stations near Tarragona, 2 on the river Ebro and 2 on the sea. In the 'warm up' period of the new S designed Vandellós 2 there've been 3 major fires, a dozen smaller shutdowns, a strike by workers and demonstrators blocking roads and being attacked by station guards, as well as locals demanding a proper evacuation plan. No release whatever of radiation has ever been admitted and happy tourists are swimming nearby on the Costa del Nuke.

But let's go back to nearby Vandellós One, bought from the French in the 60's. Recently it was closed down for a while as a large amount of strange algae entered the cooling system from the sea and blocked it, causing it to overheat. The same thing happened in Feb, and strong winds were blamed for blowing in the algae. This time a huge explosion was heard in villages up and down the coast, but the authorities said it was only the overheated reactor letting off steam and the 'damage' was within the limits of the present law. No problem then! But no independent organisation has measured the permanent ecological damage. If strong winds cause

overheating (similar to 3 Mile Island and Chernobyl) every few months and the French have already closed similar stations as they're old and dangerous, then why keep Vandellós 1 going? To make money of course, and to make bombs... all the enriched Uranium from Vandellós 1 goes back to France, who use it (among other sources) for their bomb testing which is ruining the lives and environment of Pacific people, not to mention killing the odd Greenpeace protestor and selling the same bomb technology to 3rd world States.

WATER FOR LIFE

And what of these strange algae and why was the whole shellfish farming industry of the nearby Ebro delta closed for over a month by an 'inexplicable' growth of algae or 'red scum'. (No not a Trotskyist Leninist).

The Ebro is of course used as coolant for the other 2 stations, Ascó one and two, and in May an independent test WAS made of the Ebro and found it dangerously radioactive... not too nice as it irrigates half the citrus crop nearly all the rice and the shell fish industry... as well as supplying a new plant for all the drinking water of the city of Tarragona!! The authorities did not help by saying their testing gear wasn't working and sales of bottled water rocketed. After demos in June a government official drank a glass of water in the local parliament which he CLAIMED came from the tap. And in July 4 different authorities announced that the water is 100% perfect. No problem then!!

EL CABRIL NUCLEAR DUMP

On 19th April 400 people marched for the 2nd time against the Nuclear Dump at El Cabril in Andalusia. They stopped 7 kms away to avoid possible contamination. Since then its been announced that El Cabril is to be extended, for lack of an alternative, to take high level nuclear waste.

HUNTING IN SPAIN

Over 200 owners of game reserves in Spain use poisoned quail's eggs to 'remove' natural predators. More than half a million poisoned eggs have been used in the 1st 3 months of this year. to kill eagles, lynx, black vulture

Most of the wolves killed in Spain are also poisoned, over 2500 are reported killed in recent years. Only 600 wolves are left and have no legal protection. Till recently you could get a bounty!

The Spanish bear is also dying out fast, now extinct in Catalunya (replaced by the Olympic rat mascot). ANA reports that on 7/4 a judge let off hunters who killed a bear cos it was a 'legal hunt'. On 14/6 the group ADENA trapped a gang with loads of frozen bodies of almost extinct species, including bears, and rescued 2 bear cubs alive.

The tactic of poisoning predators is used as hunting is big business... each year 3.7 million quail are hunted, and 16 million rabbits and hares, etc. 47 Spanish and 12 foreign companies are involved, not to mention the locals.

saved bear cub bites cop

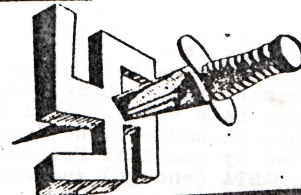

etc. This was discovered by the ecology group ADENA who traced the eggs, laced with highly toxic 4-amino-pyridine to a Madrid company, Tevesa, but can only prosecute for 'handling toxic substances' as a new law hadn't come into force.

Tas Tas reports mobilizations against fascist bands in the Madrid university. Some have formed an anti abortion group called Nacsiturus, allied with Pro-Life and have picketted abortion clinics. etc.

On 26/5 a petrol bomb exploded in the home of a member of the UVE (Special Vigilance Unit) of the police in Zaragoza. These cops are known fascists, their last action was the breaking up of a rock concert on Mayday with 5 arrests and 15 wounded.

Protecting wildlife is a big problem. Though there are 4,300 forest guards in Spain they are badly paid and complain they are isolated and fear reprisals if they report people, one was victimised for reporting the (very common) illegal building of a forest home, another for reporting that high level government officials were hunting rare seabirds (police took no action). Even worse its become known that Felipe Gonzales the president himself goes on hunting parties in the National Park

of Doñana, organised by heads of the Conservation Dept, and the 2 'rebel' forest guards who reported this are being prosecuted for telling the truth.. That every species is considered fair game, that every forest and park is totally corrupt, with refrigerated lorries pulling up at night, that Spain is rapidly becoming a region of the Sahara desert, that the new range of 'Euro laws' and pathetic fines are a cosmetic exercise.

25/4/89 Over 100 women demonstrated in Oviedo under the banner of the Feminist Assoc of Asturias, for a reform of the penal code and carrying banners condemning recent rapes and attacks. After a meeting they marched through the city.

We've received the bulletin of the Anti Patriarchy Assoc. Costs 100% from Apdo 52018, Madrid 28080. They've had a meeting and party in the CNT offices and call for the abolition of the positions of Father and Mother.

In the case against 4 doctors who gave abortions in the Nar-anjos Clinic there was an all day demo by 150 women outside, demanding the right to free, legal abortion. The accused got a year suspended prison sentence each. Next day the judge announced he meant to say a year for each 'crime'...i.e. 4 years (suspended) each plus 16 yrs on probation.

In another disgusting case an 82 year old doctor was brought to court in a wheelchair and got 4 years prison for giving an abortion in 1973. He died a few days later. Private abortion is now allowed in Spain, due to loopholes in the law, though it's very expensive, and the main campaign of the feminists has changed to demanding equality and an end to male violence.

El Tocino para el Cocido (Put the bacon in the stew... (her name means 'bacon')). On Thurs 11/5 feminist groups demonstrated outside the Hotel Gasteiz against the arrival of Isabel Tocino of the Pro-Life Assoc to give a lecture on The Family in Alava today. 5 women wrote on the wall 'Bourgeois assassin... don't talk to us about life!' and were nicked by the large number of various police forces who had turned up.

VIOLENCE AGAINST WOMEN/

It's a bit late to report on Womens Day (5000 marched in Madrid and 1500 in Barcelona). An investigation by a Commission has calculated that there are 200,000 cases of serious physical abuse of wives in Spain each year. Only 15,000 are reported. 31 womens refuges have been opened by this organisation.

Among many reports... a man killed his pregnant wife, Maria Isabel, because he thought she would have a black baby. 18 year old Lucia Galinda rang up a radio show to say her Dad had raped her 800 times... a cop who raped and murdered an English tourist asked for clemency because 'she provoked him'... etc.

On the night of 7th May the statue of Joan of Arc in Biarritz, France was painted red. Each year on 8th May the National Front have a ceremony in front of the statue.

DEATH SQUADS CONTINUE

An important court case taken by 103 citizens against the police death squads continues. Two policemen are in jail for their attempt to kill 6 people of those murdered by GAL (Anti Terrorist Liberation Groups). The police victims are mainly suspected ETA members, left wingers, a deserter, etc. The case has already showed how the police recruited mercenaries and supplied plans, targets, money, police arms, etc. Efforts to get the 2 cops released on bail have been defeated, but the state has refused twice to process higher officers and limited the charges to murders which didn't succeed and doing everything to block and cover-up. GAL attacks go on though without publicity. For example... 18/4/89 Tas Tas reports a series of GAL threats against 2 young people in Bilbao. 27/4 more threats by GAL against 17 year old Aitor Lacalle including firing outside his home at 3am. 24/4 A 16 year old youth in Baracaldo was attacked and had the letters GAL carved on one cheek and nazi symbol on the other. 23/4 Humberto Trapero was similarly marked in Otxandio and beaten up after a series of threats... etc. Some of the phone threats were that they would be framed and put in prison... i.e. admitting that the GAL are none other than the police.

Free Radios Die

15 people are being taken to court in Zaragoza for putting up posters denouncing the attack and robbery of the gear by the police of the alternative music and politics station Onda Verde. Some other free radios in Euskadi have been closed with the threat of gigantic fines. In the Canary islands a new coordination has been formed (July 89) to resist closures there. In other places (Madrid, Valencia) free radios have had less problems, but all are threatened by a new regulation and licensing system which is impossible for small non commercial radios. Another good station is the small Radio Legaña which does a prisoners and anti repression show. Radio Legaña, Apdo 658, Almeria 04080, Andalusia, Spain.

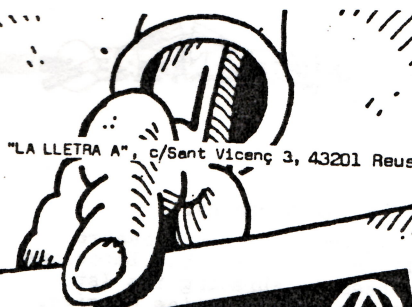

INTERNATIONAL FASCISTS

There has been a lot of fascist commemorations of Hitler's birth. The Madrid organising committee was headed by Léon Degrelle, head of the Belgian SS, now living here.

STRIKES

Since the last general strikes there have been many sectional ones with a series of one day strikes on the railways, buses, metros, airports, etc. Due to the law which forces strikers to provide 'minimum services' there has been a lot of sabotage actions.

la lletra A
REVISTA LLIBERTARIA
.. PAGE FIVE ..700ptes

TERRA LLIURE CRACKDOWN

There have been a series of raids by the police and arbitrary arrests of people they claim are part of the Terra Lliure guerrillas who want independence for Catalunya. The attacks are partly as Terra Lliure oppose the Olympics, and take advantage of the serious split between maoists and leftists within MDT, the legal wing of the movement, in fact Terra Lliure have been inactive recently. Police also arrested 23 people at a recent MDT demo using plain clothes cops and much violence. The offices of one wing of MDT were also bombed and cops blamed the other faction.

EKOMEDIA BARCELONA

Ekomedia is an international anarchist/autonomous news service which reports from an activist/anarchist perspective. Here in Barcelona we have been inactive for a while but now have 2 new helpers and hope to come out regularly each month from Sept. Most of our news comes from the anarchist news services ANA (weekly, Barcelona), Tas Tas (2 weekly, Euskadi) UPA (2 weekly, Madrid) and CONTRA (monthly, Canaries). All these groups exchange info so if you speak Spanish, why not subscribe direct, we can only translate a fraction. The other half of our project is translating into Spanish for these agencies, which also link to pirate radios. We've received publications from the Ekonomia groups in Toronto, Denmark, London, Belfast, France as well as Counter Info (Scotland) Direct Action (England), Brand (Sweden), Hamburg communique, NN and Grachtenkrant (Holland) Merseyside Anarchist (Liverpool) Leeds bulletin, Inside Info (Black Cross) Rebel Worker (Australia), etcetera.

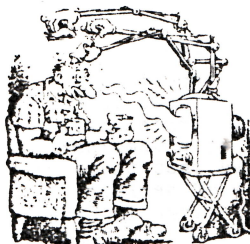

If you want to be sure your story goes into the Spanish network, translate it yourself. We can only do a fraction of what we think is important and leads to international cooperation. Also please tell us if you're interested in a particular subject as we have loads of info.

Agencia de Noticias Alternativa
APTDO. 72
08820
PRAT DE LLOBREGAT

ANA
The Alternative news agency of Barcelona. In Oct we celebrated our 1st birthday with our 52nd news bulletin. Using 2 answering machines and a computer, we have 76 subscribers, 16 magazines, 8 radios, 24, anarchist or autonomous groups, 5 co-ops and 32 individuals who also represent groups. We send out 130 bulletins weekly, as well as those put up in cafes etc.
Address: Ap. de Correos 72, Prat de Llobregat, 08820 Barcelona.

TAS TAS
Similar to ANA with even longer weekly bulletins. All these groups are working in common, exchanging info and widening our network. In Euskadi the Free Radios are vital for spreading news and the govt. campaign to close them is being resisted.
Tas Tas: Ap de Correos 1673, Vitoria-Gasteiz.

UPA
Starting in Oct 88 in Madrid as a sister group to the others, we have already sent out lots of info and are building up contacts.

CONTRAINFO
In Aug 88 the 1st Canaries bulletin appeared, made up of extracts from ANA, TAS and KAOS. The 2nd, with more Canaries news, has now come out. CONTRAINFO: Ap. de Correos 11053, 38080 Sta. Cruz de Tenerife.

AGENCIAS DE CONTRA-
INFORMACION:
NUEVAS PERSPECTIVAS

AGENCIA de noticias ALTERNATIVA

POLICE CRIMINALS
ANA reports the death of José Lopez, shot dead 'by accident' while robbing scrap metal with his brother.
More GAL threats. Two militants of the CNT-Gasteiz received in their homes death letters from GAL accusing them of being in the CAA (Anti Capitalist Comandos).
3 policemen who arrested, tortured, shot, cut up and burnt 3 youths in Almería because they thought (mistakenly) that they were ETA members are all now free. The last one to be let go, Carlos Quero, had done only 7 of a 24 year sentence, all of it in police barracks living like a king. Demos and family support are being organised by CARA.. (Alternative Almerese Revolutionary Collective).

New bookshop in Portugal
Liuraria Vulcão is a meeting place and centre of anarchist projects in Portugal which is looking for international contacts. Liuraria Vulcão Café Art-esanato, Rua Prof. José Buisel 43 r/c. 8500 Portimão, Portugal.

Lesbian and Gay Day
28th June was the International day of Gay and Lesbian Liberation. We don't have direct reports yet but a long call to action signed by 8 different Lesbian and Gay federations from around Spain.

SENSE FRONTIERES

ANTI's 1st Birthday.
The alternative youth centre ANTI in Calle Libertad, Barcelona has been celebrating its 1st birthday with a series of gigs, debates etc. Its very popular. However there is a long rave in the last ANA bulletin complaining and asking why only 2 people turned up to a debate entitled 'Is the anarchist movement sectarian?'

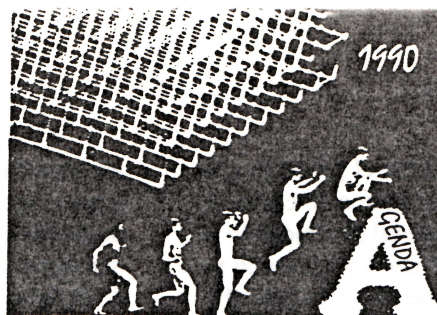

Olympics
The new budget of the Olympic Committee is 127,300,000,000

PREPARING FOR OLYMPICS
On 18/3 a comrade from the group Goma Nou in the working class suburb of poble Nou was attacked and badly beaten up by plain clothes police. The same Barcelona area is the site of the new Olympic village etc and police are cracking down eg arresting people and firing shots in the air at a local Fiesta. On 23rd June which is bonfire night here a concert was organised in the area and a huge effigy of the Olympic mascot, Kobi, was burnt in the middle of the street. Most people however still support the Olympics, though new rents have doubled in the past year.

Hungarian Anarchists.
The group Autonomia in Budapest are getting active and there are now groups in other towns. Some of them are founder members of the free union Munkasszolidarias (Solidaridad Obrera). They want to receive material from around the world and their address is: Autonomia, c/o Eotvos Klub, Karoly M. ut. 9, H-1053, Budapest Hungary.

AGENDA LIBERTARIA 1990

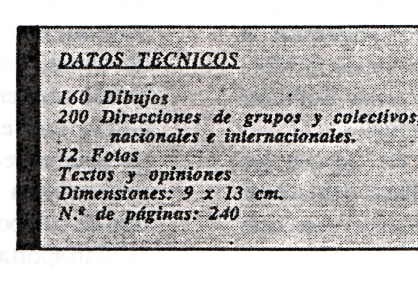

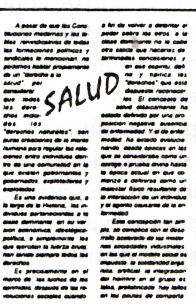

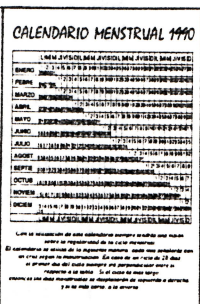

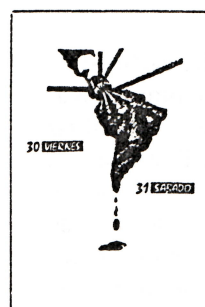

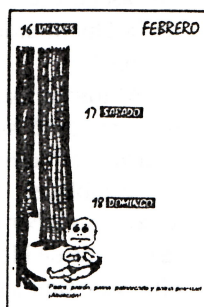

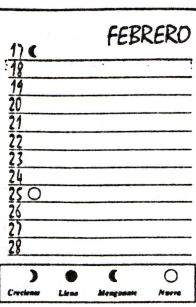

Con esta publicación pretendemos, por un lado, llenar un vacío en cuanto a publicaciones libertarias, y por otro, gracias a los posibles beneficios de su distribución, cubrir necesidades para potenciar otros proyectos libertarios, hacer frente a gastos represivos, etc.

La edita, con el deseo de que sea de utilidad práctica:

I-001. CUESTION NACIONAL Y AUTONOMIA OBRERA EN EUSKAL-HERRIA.

Edita Zirikatu. P : 275/PV: 300

Desde la aparición del catálogo de abril/89- esperamos sacar otro renovado a principios del 90- las perspectivas de funcionamiento de la Distribuidora se han ampliado considerablemente, habiéndose consolidado en un papel de difusor de toda una serie de materiales autoproducidos y antiautoritarios, además de ser un elemento de servicio a las economías de los colectivos implicados ya que se puede garantizar la recuperación de los costos de producción así como asegurar posteriormente la rentabilidad del producto.

También obtienen un margen los colectivos que hacen llegar el material hasta el personal en concreto y, en este aspecto la Distribuidora posee un

margen mínimo sobre el producto con el fin de cubrir los gastos de envío, la producción de material (por ejemplo la nueva cinta del NO92) y tal como se está desarrollando el proyecto la posibilidad de disponer de una persona fija que asegurara el funcionamiento diario de la Distribuidora de una forma más racional.

Al iniciar este trabajo, la Distribuidora no basó su razón de ser en las relaciones "comerciales" que se pudieran establecer, sino en el apoyo que supone su labor tanto a grupos como a la difusión de ideas antiautoritarias. Por ello, valoramos sobremanera el trabajo a efectuar con las revistas, material sobre el que se pone el mayor énfasis pero que no alcanza las cotas de ventas de cintas, camisetas y otros objetos. Desde aquí animamos a los colectivos enfrascados en la producción de revistas a que estrechen sus relaciones con la distribuidora y piensen en cualquier tipo de colaboraciones y ayudas que se puedan aportar, desde la distribución de

una cantidad determinada de números hasta el reparto completo de una revista, tal como se hace con la Llettra A., lo que repercute en un mayor tiempo libre de la redacción de la revista para centrarse en su realización. También nos encontrareis en el campo de la producción de material y en el apoyo a campañas antirepresivas y otras.

En el tiempo que llevamos de funcionamiento se ha constatado el gran potencial latente que esta actividad posee pues es un terreno no abordado en todo el Estado y es clave para no hipotecar grupos y actividades, además de contribuir a la difusión de unas ideas. Animamos a grupos y personas interesadas a convertirse en puntos de distribución allá donde se encuentren, sólo así podremos llegar a un ámbito de actuación más amplio y crear espacios liberados al margen de los canales comerciales de distribución y de las leyes que rigen el mercado.

Hasta la próxima. Salud

EL LOKAL-DISTRIBUIDORA.

Os adjuntamos una encuesta con las publicaciones de que disponemos, con el fin de que nos la hagais llegar con las cantidades que os interesen.

Insistimos en que estamos muy interesados en agilizar la distribución de material escrito y creemos que la encuesta sería un primer paso de cara a esta agilización.
